First, let me thank all the contributors to the second edition of Assumption University-eJournal of Interdisciplinary Research (AU-eJIR). eJIR aims to promote original research in few main areas-Technology, Multidisciplinary Science & Technology, Economics, Administration and Management. As an open access journal its core objective is to cultivate fruitful dialogues among academics, researchers and graduate students.

On this auspicious occasion of the publication of 2nd edition of AU-eJIR I must congratulate the contributors from various countries. It is quite encouraging to see that we have received papers from faculty and researchers from countries ranging from Ethiopia to USA. We had an overwhelming response from our neighboring country in South East Asia- India.

I wish all the success and glory to GSeL and thank the staff and the Managing Director for putting together this new edition. I am sure that the next edition will have many more interesting papers covering variety of themes.
